
Course Name

Asbestos Class B Refresher

Course / qualification / unit code and title

None – to meet Victorian Worksafe requirements

Course overview

Course overview

The Victorian regulator requires practitioners to undertake a refresher course (Annually for Class A and B and Bi-annually for Class B).

This short course will provide participants with an update to their understanding of the nature, health hazards and regulatory requirement for the identification of asbestos containing material.

Prerequisites / entry requirements

In order to commence this unit participants are required to have completed the pre-requisite unit:

- CPCCE3014A Remove non-friable asbestos or
- CPCCE3015A Remove friable asbestos

Structure and Duration

Course Structure

This half day program is designed to provide an appropriate level of refresher training for both Class A (friable) and Class B (non-friable) asbestos removal.

Course duration

4 hours.

Outcomes and Recognition

Course outcomes

The course provides updates and refresher information relating to the removal of ACMs as required by Victorian Worksafe, but see Licensing and registration information below.

Recognition

On successful completion of this course, the participants will receive a Statement of Attendance for the unit. In addition learners will be provided with an updated industry Blue Card.

Licensing and registration information

Victorian Worksafe require *the organisation to be licensed* and to use trained operatives (who have attend a course at an approved training organisation) – PICAC is approved by Worksafe Victoria.

Delivery and assessment

Delivery arrangements

The course is delivered over 4 hours at the PICAC campus.

Delivery is entirely classroom based/

Subject to timetabling and minimum student numbers, this program can be delivered either during the:

- **daytime** for candidates required to complete skills development required for in house training by employers or
- **daytime or evening** for self-employed or unsponsored employees wishing to advance their skills.

Assessment arrangements

You will need to complete written questions relating to Asbestos Knowledge and Removal.

Recognition of Prior Learning (RPL)

None
